🎓 EDUCATION

- 2020-2023 **Lakshya Institute of Technology, Bhubaneswar.** Bachelors of Science in Information Technology and Management(BSc.ITM).
- 2018-2020 **Biju Pattnaik College of Science and Education,** Council Of Higher Secondary Education Odisha.
- 2018 **Kasturaba Shikshya Ashram Vidyamandir,** Board Of Secondary Education Odisha.

💼 WORK EXPERIENCE

- 2023 - Present At Odisha Space Application Center (ORSAC), I am working as a **Software Developer** managing crucial state government projects, notably for the forest department, including **on-site work at the state forest headquarters**. I utilized **PHP frameworks** like **CodeIgniter** and **Laravel** to create **APIs**, user dashboards, and report generation mechanisms. Additionally, I implemented various geo-ICT features, worked with EXIF data and KML files, and was involved in **system design** and **application development from scratch**.

🎓 PROJECT WORK

SWCMS, ,

- Developed an entire **laravel** application from scratch.
- Implemented various back-end concepts and also handled the entire project management and client relationship. I was also responsible for the operation part like deployment and pipeline management of the project.

Odisha Forest Monitoring System (OFMS), ,

- Was part of the redevelopment and maintainance team of OFMS.
- Created **APIs** and User Dashboards to represent various datas like firepoint. Implemented report generation mechanism for showign patrolling reports.

NFTP Mapper, ,

- Worked as a full-stack developer creating APIs and front-end components to enhance the user interface.
- Created various APIs to show data related to non-timber forest products and created dashboards to show them in form of various graphical chart.
